Dear Shanta,

Further to our follow up call this morning, regarding clarification of the Draft Terms and Conditions of the registration, we hereby agree that in the event the Agency determines it will not be able to grant an extension of the oranges and grapefruit use registration, and notifies AgLogic about it, and if Aglogic the registrant does not remove oranges and grapefruit from EPA Registration 87895-2, then the entire AgLogic aldicarb registration will expire on April 30<sup>th</sup>, 2023.

Best regards,
